Subject: Recommendation of Candidates for Masters/Doctoral Degree in Korea University

Dear Sir,

It is the reference to the letter from the Department of Economics, Korea University, dated 23 April 2021, to recommend candidates who can apply for a degree in Korea University. The program aims to educate government officials and specialists in the field of energy to contribute to the inclusive energy development of emerging countries and promote solid and close cooperation.

KOEN is a primary sponsor for developing the Upper Trishuli-1 (UT-1, 216MW) hydropower project in Rasuwa. As a 100% Korean Government entity, KOEN has supported the University to implement the Global Energy Technology Policy Professionals Program (GETPPP). Applicants recommended by NWEDC can directly apply to the University. For your information, one of the Nepali students from NEA recommended by NWEDC had completed masters' degrees successfully in 2020.

Therefore, NWEDC would like to request to recommend candidates from Governmental organizations to apply for this renowned scholarship program in Energy Sector and take the opportunity to build a strong relationship among us. Recommended candidates are encouraged to contact NWEDC at the earliest.

Sincerely yours,

Mr. Hee Woong Kang
Chief Executive Officer
Nepal Water & Energy Development Co. Ltd
